ROLES AND RESPONSIBILITIES

Sponsored Projects Administration

This document defines the roles and responsibilities of those involved in the identification, assembly, and submission of proposals related to sponsored projects as the University of Michigan (U-M).

The “Unit Admin” column encompasses any research administrator, unit administrator, or higher level within the unit. Because many units across campus provide services in different ways, it was not possible to delineate these roles in a uniform way across campus. Individual units are encouraged to explore developing a companion list that best describes their home unit and delivery of services in their context.

Principal Investigators, however, do have specific responsibilities delineated in the [U-M Standard Practice Guide \(SPG\)](#). Although often research administrators help perform these tasks, the PI has been reflected as responsible. If you are unfamiliar with the RASCI system, you may view a brief, online tutorial: <https://www.youtube.com/watch?v=1U2gngDxFkc>

<u>ROLES</u>	
R	Responsible for the correct and thorough completion of the work to achieve the task
A	Accountable for the correct and thorough completion of the task, typically delegating the work to those responsible
S	Support for those who are responsible or accountable
C	Consulted as needed in order to complete the task (two-way communication)
I	Informed that task is underway/completed (one-way communication)
