<b>PART VI - Deferred Compensation and Insurance Costs</b>	<b>VI-1</b>
<b>PART VII - Central System or Group Expenses</b>	<b>N/A</b>

**COST ACCOUNTING STANDARDS BOARD  
DISCLOSURE STATEMENT  
REQUIRED BY PUBLIC LAW 100-679  
EDUCATIONAL INSTITUTIONS**

**GENERAL INSTRUCTIONS**

1. This Disclosure Statement (the "Statement") has been designed to meet the requirements of Public Law 100-679, and persons completing it are to describe the educational institution and its cost accounting practices. For complete regulations, instructions and timing requirements concerning submission of the Statement, refer to Section 9903.202 of Chapter 99 of Title 48 CFR (48 CFR 9903).

2. Part I of the Statement provides general information concerning each reporting unit (e.g., segments, business units, and central system or group (intermediate administration) offices). Parts II through VI pertain to the types of costs generally incurred by the segment or business unit directly performing under Federally sponsored agreements (e.g., contracts, grants and cooperative agreements). Part VII pertains to the types of costs that are generally incurred by a central or group office and are allocated to one or more segments performing under Federally sponsored agreements.

3. Each segment or business unit required to disclose its cost accounting practices should complete the Cover Sheet, the Certification and Parts I through VI.

4. Each central or group office required to disclose its cost accounting practices for measuring, assigning and allocating its costs to segments performing under Federally sponsored agreements should complete the Cover Sheet, the Certification, Part I and Part VII of the Statement. Where a central or group office incurs the types of cost covered by Parts IV, V and VI, and the cost amounts allocated to segments performing under Federally sponsored agreements are material, such office(s) should complete Parts IV, V, or VI for such material elements of cost. While a central or group office may have more than one reporting unit submitting Statements, only one Statement needs to be submitted to cover the central or group office operations.

5. The Statement must be signed by an authorized signatory of the reporting unit.

6. The Statement should be answered by marking the appropriate line or inserting the applicable letter code which describes the segment's (reporting unit's) cost accounting practices.

7. A number of questions in this Statement may need narrative answers requiring more space than is provided. In such instances, the reporting unit should use the attached continuation sheet provided. The continuation sheet may be reproduced locally as needed. The number of the question involved should be indicated and the same coding required to answer the questions in the Statement should be used in presenting the answer on the continuation sheet. Continuation sheets should be inserted at the end of the pertinent Part of the Statement. On each continuation sheet, the reporting unit should enter the next sequential page number for that Part and, on the last continuation sheet used, the words "End of Part" should be inserted after the last entry.

**COST ACCOUNTING STANDARDS BOARD  
DISCLOSURE STATEMENT  
REQUIRED BY PUBLIC LAW 100-679  
EDUCATIONAL INSTITUTIONS**

**GENERAL INSTRUCTIONS**

8. Where the cost accounting practice being disclosed is clearly set forth in the institution's existing written accounting policies and procedures, such documents may be cited on a continuation sheet and incorporated by reference. In such cases, the reporting unit should provide the date of issuance and effective date for each accounting policy and/or procedures document cited. Alternatively, copies of the relevant parts of such documents may be attached as appendices to the pertinent Statement Part. Such continuation sheets and appendices should be labeled and cross-referenced with the applicable Statement item number. Any supplementary comments needed to fully describe the cost accounting practice being disclosed should also be provided.

9. Statements must be amended when disclosed practices are changed to comply with a new CAS or when practices are changed with or without agreement of the Government (Also see 48 CFR 9903.202-3).

10. Amendments shall be submitted to the same offices to which submission would have to be made were an original Statement being filed.

11. Each amendment should be accompanied by an amended cover sheet (indicating revision number and effective date of the change) and a signed certification. For all resubmissions, on each page, insert "Revision Number \_\_\_\_\_" and "Effective Date \_\_\_\_" in the Item Description block; and, insert "Revised" under each Item Number amended. Resubmitted Statements must be accompanied by similar notations identifying the items which have been changed.

**CONTINUATION SHEET**

**NAME OF REPORTING UNIT**  
University of Michigan

<b>Item No.</b>	<b>Item description</b>
1.1.0	The University charges items to grants and contracts on the cash basis as expenditures are made. At the end of each fiscal year, adjustments are made to the accounting records to record certain accruals (i.e. vacation liability, accounts payable, etc.), but these adjustments are not charged directly to sponsored agreements. These accrual adjustments are excluded from direct and indirect costs.
1.2.0	Costs are charged to sponsored projects and other cost objectives as expenditures are made. The University follows the guidance included within the NACUBO Financial Accounting and Reporting Manual for classifying expenditures in its financial statements. Classification of accounts as appropriate direct bases or indirect cost pools is done by the Cost Reimbursement Office using information obtained from the University's general ledger. Capital expenditures are made out of operating accounts and also the Plant Fund. Depreciation is recorded in the general ledger, reflected in the financial statements and utilized in preparing the indirect cost proposal. Included in the Facilities and Administrative ("F&A") Proposal are interest costs on State of Michigan Building Authority bonds used for capital projects at our University. These costs are not incorporated with our financial accounting records.
1.3.0	<p>Unallowable costs as defined by A-21 are identified in one of three ways and are included in the Other Institutional Activities cost pool or are eliminated from the indirect cost calculations in some instances.</p> <ol style="list-style-type: none"> <li>1. Where all costs are unallowable for a specific unit (for example, the Development Office), that unit's costs are identified as unallowable through the unit's department identification code in the financial accounting records.</li> <li>2. In units where less than all costs are unallowable, the unallowable costs are identified by a unique class code in the financial accounting records.</li> <li>3. Some unallowable costs (for example, bad debts) are identified by a unique expense code in the financial accounting records.</li> </ol>
1.3.1	Unallowable costs are included in the Other Institutional Activities base or treated as an exclusion for F&A purposes in some instances.
1.5.0	The University operates as a separate entity governed by an elected Board of Regents. Even though the University receives an appropriation of funds from the State of Michigan, there are no State laws or regulations restricting the use of these funds once the appropriation has been made.
END OF PART I	

<p style="text-align: center;"><b>COST ACCOUNTING STANDARDS BOARD DISCLOSURE STATEMENT REQUIRED BY PUBLIC LAW 100-679 EDUCATIONAL INSTITUTIONS</b></p>		<p style="text-align: center;"><b>PART II - DIRECT COSTS</b></p> <hr/> <p style="text-align: center;"><b>NAME OF REPORTING UNIT</b> University of Michigan</p>																													
<p><b>Item No.</b></p>	<p style="text-align: center;"><b>Item description</b></p>																														
	<p style="text-align: center;">Instructions for Part II</p> <p>Institutions should disclose what costs are, or will be, charged directly to Federally sponsored agreements or similar cost objectives as Direct Costs. It is expected that the disclosed cost accounting practices (as defined at 48 CFR 9903.302-1) for classifying costs either as direct costs or indirect costs will be consistently applied to all costs incurred by the reporting unit.</p> <p>2.1.0 <u>Criteria for Determining How Costs are Charged to Federally Sponsored Agreements or Similar Cost Objectives</u> . (For all major categories of cost under each major function or activity such, as instruction, organized research, other sponsored activities and other institutional activities, describe on a continuation sheet, your criteria for determining when costs incurred for the same purpose, in like circumstances, are treated either as direct costs only or as indirect costs only with respect to final cost objectives. Particular emphasis should be placed on items of cost that may be treated as either direct or indirect costs (e.g., Supplies, Materials, Salaries and Wages, Fringe Benefits, etc.) depending upon the purpose of the activity involved. Separate explanations on the criteria governing each direct cost category identified in this Part II are required. Also, list and explain if there are any deviations from the specified criteria.)</p> <p>2.2.0 <u>Description of Direct Materials</u>. All materials and supplies directly identified with Federally sponsored agreements or similar cost objectives. <p><b>Item No.</b></p>	<p align="center"><b>Item description</b></p>		
<p>2.1.0</p>	<p>The University of Michigan records costs in a series of chartfields. Each chartfield represents one specific activity or function of the University. The cost for any particular transaction is recorded in a chartfield using a specific expense account which identifies the type of cost incurred. The determination of the classification of a cost is not based on the expense account, but the purpose and circumstance for the expense and assigned a class code which identifies the proper category for F&amp;A purposes. Federal projects of "like circumstances" are directly charged when the cost provides a direct benefit to the project at the time the cost is incurred. For example, PI salary, equipment and travel. Normally clerical salaries, postage, and office supplies are charged as indirect costs unless an unlike circumstance is justified at the time of proposal and again at the time the cost is incurred, at which time the cost would be allowed as a direct cost. An example of an unlike circumstance would be a survey project with mass mailing of survey documents, where the postage would be allowable as a direct cost to the federal project. If a cost benefits two or more activities in proportions that can be determined without undue effort or cost, the cost is allocated to projects based on proportional benefit as determined by investigators with firsthand knowledge of direct cost activities for the project. Examples of criteria used to allocate costs are usage and location. Costs which benefit multiple activities and cannot be easily and accurately prorated between the activities are classified as indirect costs. Cost sharing commitments are recorded in companion accounts established to record and track the portion of the project funded from University resources. There is one cost sharing chartfield for each sponsored agreement where cost sharing is identified. The policy of the University is to cost share amounts quantified in the budget. The companion chartfield rolls into the same cost base as the sponsored agreement. All cost sharing commitments must be shown on the Proposal Approval Form (PAF) and approved by the appropriate parties.</p>		
<p>2.2.0</p>	<p>Direct material costs typically include the following major classifications:  Laboratory supplies (beakers, protective equipment)  Chemical supplies (solvents, acids)  Biological supplies (tissues, DNA samples)  Electronic supplies (ICs, cables, SMA connectors)  Field supplies  Laboratory animals  Medical supplies (drugs, pharmaceuticals, clinical supplies)  Other direct materials as required by the terms and conditions of the project.</p> <p>Certain materials normally treated as indirect costs may be charged directly when specifically required for performance of the project or activity and allowable under the terms of the agreement. Under these circumstances, these specific costs are not considered general purpose materials or costs.</p>		
<p>2.3.2</p>	<p>Y. Other- Certain departments have inventories of commonly used supplies to meet staff demands when the delivery time from Procurement Services is not sufficient to meet their needs. Materials requisitioned from departmental inventories are charged to cost objectives at standard charges which sometimes include the cost of handling. These standards are reviewed and adjusted annually to reflect any changed conditions.</p>

3.1.0

Indirect Cost Categories - Accumulation and Allocation. This item is directed at the identification, accumulation and allocation of all indirect costs of the institution. (Under the column heading, "Accumulation Method," insert "Yes" or "No" to indicate if the cost elements included in each indirect cost category are identified, recorded and accumulated in the institution's formal accounting system. If "No," describe on a continuation sheet, how the cost elements included in the indirect cost category are identified and accumulated. Under the column heading "Allocation Base," enter one of the allocation base codes A through P, Y, or Z, to indicate the basis used for allocating the accumulated costs of each indirect cost category to other applicable indirect cost categories, indirect cost pools, other institutional activities, specialized service facilities and other service centers. Under the column heading "Allocation Sequence," insert 1, 2, or 3 next to each of the first three indirect cost categories to indicate the sequence of the allocation process. If cross-allocation techniques are used, insert "CA." If an indirect cost category listed in this section is not used, insert "NA.")

5.1.0

Certain employees who work on several activities and are not able to reasonably predict their activity are appointed to pool accounts. Their labor costs are charged to sponsored agreements and other activity based on monthly activity reports detailing their activity for the previous month. The labor amounts charged include actual salaries and wages, direct fringe benefits, and a provision for vacation, sick, and holiday pay. Compensated personal absences are not charged to projects, but to the pool established through the provision for vacation, sick and holiday pay.

END OF PART V

<b>COST ACCOUNTING STANDARDS BOARD DISCLOSURE STATEMENT REQUIRED BY PUBLIC LAW 100-679 EDUCATIONAL INSTITUTIONS</b>	<b>PART VI - DEFERRED COMPENSATION AND INSURANCE COSTS</b>
	<b>NAME OF REPORTING UNIT</b> University of Michigan

Item No.	Item description												
	<p>Instructions for Part VI</p> <p>This part covers the measurement and assignment of costs for employee pensions, post retirement benefits other than pensions (including post retirement health benefits) and insurance. Some organizations may incur all of these costs at the main campus level or for public institutions at the governmental unit level, while others may incur them at subordinate organization levels. Still others may incur a portion of these costs at the main campus level and the balance at subordinate organization levels.</p> <p>Where the segment (reporting unit) does not directly incur such costs, the segment should, on a continuation sheet, identify the organizational entity that incurs and records such costs. When the costs allocated to Federally sponsored agreements are material, and the reporting unit does not have access to the information needed to complete an item, the reporting unit should require that entity to complete the applicable portions of this Part VI. (See item 4, page (i), General Instructions)</p>												
6.1.0	<u>Pension Plans.</u>												
6.1.1	<p>Defined-Contribution Pension Plans. Identify the types and number of pension plans whose costs are charged to Federally sponsored agreements. (Mark applicable line(s) and enter number of plans.)</p> <table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 10%;"></th> <th style="width: 70%; text-align: center;"><u>Type of Plan</u></th> <th style="width: 20%; text-align: center;"><u>Number of Plans</u></th> </tr> </thead> <tbody> <tr> <td>A. _____</td> <td>Institution employees participate in State/Local Government Retirement Plan(s)</td> <td style="text-align: center;">_____</td> </tr> <tr> <td>B. <u>  X  </u></td> <td>Institution uses TIAA/CREF plan or other defined contribution plan that is managed by an organization not affiliated with the institution</td> <td style="text-align: center;">_____</td> </tr> <tr> <td>C. _____</td> <td>Institution has its own Defined-Contribution Plan(s) <sup>1/</sup></td> <td style="text-align: center;">_____</td> </tr> </tbody> </table>		<u>Type of Plan</u>	<u>Number of Plans</u>	A. _____	Institution employees participate in State/Local Government Retirement Plan(s)	_____	B. <u>  X  </u>	Institution uses TIAA/CREF plan or other defined contribution plan that is managed by an organization not affiliated with the institution	_____	C. _____	Institution has its own Defined-Contribution Plan(s) <sup>1/</sup>	_____
	<u>Type of Plan</u>	<u>Number of Plans</u>											
A. _____	Institution employees participate in State/Local Government Retirement Plan(s)	_____											
B. <u>  X  </u>	Institution uses TIAA/CREF plan or other defined contribution plan that is managed by an organization not affiliated with the institution	_____											
C. _____	Institution has its own Defined-Contribution Plan(s) <sup>1/</sup>	_____											
6.1.2	<p>Defined-Benefit Pension Plan. (For each defined-benefit plan (other than plans that are part of a State or Local government pension plan) describe on a continuation sheet the actuarial cost method, the asset valuation method, the criteria for changing actuarial assumptions and computations, the amortization periods for prior service costs, the amortization periods for actuarial gains and losses, and the funding policy.)</p>												
	<b><u>1/ Describe on a Continuation Sheet.</u></b>
